FOREST T. TAYLOR

Forest T. Taylor, Staunton, Va., died on March 18th after being ill for some time. Mr. Taylor was for many years a breeder of Thoroughbred horses at his Cherry Hill Farm in Staunton, which he managed himself. There were generally about 10 mares and a stallion or two in his stud. For years Mr. Taylor was the secretary of the Glenmore Hunt Horse Show, Chilly Beau, the bay son of Chilhowie out of Beau's Gal, by Beau Gallani and Bowler, a War Admiral horse out of the John P. Grier mare, Rash Hurry, are currently standing at Cherry Hill. M.R.

JUNIOR DAY - ORANGE COUNTY HUNT

Junior Day with the Orange County Hunt, the first of its kind to be held in this section, was pioneered by Mrs. Paul Fout, District Commissioner of the Orange County-Middleburg Pony Club and was attended by members of that organization. Twenty five or so eager pint and quart sized juniors met under the giant oak at James H. Strother's "Texas Farm", on Thursday, March 19, just squeaking in under the wire, for hunting officially closed for the season two days later. Orange County Hunt's M.F.H. Charles G. Turner with veteran Huntsman Duke Leach and Whipper-in Joe Kirby and hounds were all on hand to add to the day's fun. Patrols were Mrs. Fout, Mrs. Muriel Ratcliff, Mrs. William Gordon, Carter Foster, Mrs. George Tener, Mrs. Henry Loomis and Mrs. Herbert Shaw.

Hounds found on Ohrstrom's Whitewood Farm, ran at a keen pace through Schneiders, to Harper's woods and finally killed in Phipps' woods, slaying in transit two rabbits and an unthinking opossum but that last bit is pure rumor.

Now a fox can only go so far, and upon the occasion of this great divide there was overheard a comparison to the parable of

the loaves of bread and the fishes i.e., there just wasn't enough fox to go around. Even the blood ran out! The mask went to Timmy and Pixie Loomis, the brush to Tena Tener, pads to Butter, Dee and Louie Strother, Anne C. Foster, Skip, Gould and Shawn Brittle, Bobby and Carv Turner, A centipede carrying an advantage of 96 feet on our fox would probably have just enough to go around.

C. W. (Bill) Kettlewell is a relatively new name to artlovers and, indeed, to many horselovers, but already he is making them sit up and take notice.

Kettlewell's pictures please those art lovers who don't know the tail of a horse from the head, just as much as they delight forhunters and steeplechasers, for here is an artist in the truest sense of the word. It is his ambition to paint portraits of horses which will live to become treasured heirlooms and his work so far indicates that he is achieving his goal. While his first love is painting horses, he is an excellent protrait painter. One of his finest pieces of work in this line is the portrait of Mr. Michael Sifton, son of Major Clifford Sifton, Joint Master with Lady Eaton of Toronto & North York Hunt. Since there is no other Canadian artist with this unique ability to paint rider and horse with equal skill, it looks as though Kettlewell's commissions for this type of portrait might be numerous. While he usually works in oils, pastels are his favourite medium. His hunting pictures are particularly true-to-life, since he never misses a day's sport with hounds if he can possibly throw a leg over a

Bill Kettlewell was born in Ingersoll, Ontario, thirty-eight years ago. He studied art in London, England, and while there met and married Eileen Hickes. They have four children, David, Caroline, Stephanie and Deborah. Their snug, country home, "Fogwood Farm," King, Ontario, is tucked in amongst the hills, some distance from the main highway north of Toronto. Bill does his work in a casual, pinepanelled studio, by a large picture window, facing barn and paddock, His own Thoroughbred and the youngsters' pony, "Babette", are often used as subjects for freehand drawings. A beagle, "Hickory" and "Sam" a six-months' Labrador Retriever pup, complete the

When Bill Kettlewell was Art Director with the J. Walter Thompson Advertising Agency in Toronto, he took a three months' leave-of-absence as a trial spin in painting horses. During that time, he received commissions to paint Major Sifton's mare, "Penny", Mr. J. H. Crang's mare, "Countess" and Mr. Harold Woolnough's famous hunter, "Topper". When he told his colleagues that he was resigning his position to free-lance in art, they told him he was nuts, particularly when they learned he was to specialize in horses. "You're a reactionary!" they told him, "Here we are, trying to keep pace with the moderns, aiming to putdown on canvas the flight of the latest jet plane, and what do you do? Drop everything to paint the most Obsolete mode of transportation in the world! HORSES for Pete's

Bill Kettlewell says he has never regretted his decision, though he doesn't think he's picked the easiest job he could find, "While I admit I'm horse-crazy," he says, "I don't know why I am when it comes to painting them. Believe me, they're the hardest things for an artist to specialize in." He goes on to explain "No horse ever looks the same to anyone as he does to his owner. You may do what you feel, and what your friends all agree. is a "perfect likeness" of a particular horse, but the owner looks wistful. You discover you've forgotten the four white hairs over his left eyebrow. That's a farfetched example, of course, but not too far-fetched at that!10

Those who have commissioned Kettlewell portraits, however, belie his statement, Major Gordon Gayford, owner of the famous jumper and brilliant hunter. *Rocket**, says he finds himself most evenings after dinner sitting in an easy chair just looking at the picture, because it's such a perfect portrait and such a beautiful painting.

Rocket has become an institution in Canadian Horse Shows. He was one of five horses sent by Canada to England to go to the Olympic Games in Helsinki in 1952. Unfortunately he was injured in training and could not go on. The next year he was Conformation Hunter and Working Hunter Champion of Zone 2 (Ontario) and was Reserve Working Hunter Champion at the Royal Winter Fair. He was hunted regularly with the North York Hounds and won the Hunter Shield and the President's Cup (twice), both given by the Eglinton Hunt. Known as 'the Iron Horse', he went to all kinds of shows, participated in hunter trials and in all types of hunter classes from ladies to junior. Owned by Major G. T. Gayford, he has generally been ridden by his son, Tom Gayford, who made such a great record on the Canadian Jumping Team at the National Horse Show last autumn. Rocket is seven-eighths Thoroughbred and one-eighth Standardbred.

Pony Club Policies

(EDITOR'S NOTE: - The following is one of many approving letters received by Col. Fair, president of the U. S. Pony Clubs, Inc., in response to the letter of the U.S.P.C. addressed to all Sustaining Members).

Dear Col. Fair:

Mrs. Reidy has just sent me a copy of the summary of the Annual Meeting of the U.S.P.C., and I cannot resist writing to you.

I was so impressed at Teela-Wooket last summer during the Pony Club discussions with your concern that more education, more fun, and more team work be included in Pony Club meetings.

You have reiterated this philosophy so well in the letter of Feb. 20, As a physical education teacher, I certainly appreciate your concern. It has so often worried me about the small minority of people trained in education who are teaching riding.

Too many riding masters see only the individual - and not the group - and, as you say, this often means recognition only of the wealthier children. Unfortunately, but understandably, this will probably be a problem for years and years - I only wish that more physical educators were qualified to teach riding; and, if qualified, were given the chance to do so.

Next Fall I am starting in on a Master's Degree. If there are any studies that would benefit the U.S.P.C. - and qualify for a thesis - I certainly would like to hear about them. I am sincerely interested in furthering the ideal of happy, healthy, and confident children and horses in any way

Loose Reins or Contact Dear Sir:

I certainly enjoyed your editorial "Loose Reins or Contact," It is something we should really give some thought to and possibly a little coverage on the matter in our Rule Book.

Sincerely yours, James H. Blackwell Executive Sec'y. A.H.S.A.

SHOWS AND MORE SHOWS

In the editorial reprinted from our contemporary "Hoofs and Horns" in these columns last week, it was pointed out that, although we have only about a tenth of the horses in the United States to-day which we had at the beginning of World War I, the quality of our horses has improved to a corresponding degree. So also has the quality and number of our horse shows and other equestrian competitions. Anyone unfamiliar with the trend of the times might well conclude that fewer horses would produce fewer contests. Actually the ratio has been just the opposite.

A hundred years ago, when horses were the principal source of both power and transportation, organised contests were restricted to a few hundred running and trotting races and to classes for breeding stock at the major fairs and a half dozen horse shows. To-day, however, when horses work for a living only on a diminishing number of western ranches and the vast majority are maintained purely for sport, the number of contests for horses is fast reaching astronomical figures. Their number is matched only by their variety. Seventeen separate divisions, from Arabians to Welsh ponies, are now included in the Rule Book of the American Horse Shows Association, which has gradually grown to a thickness resembling a legal Codex. The many hundreds of shows in the U. S. and Canada held under the aegis of the A.H.S.A. are matched by an even larger number of smaller shows which are not members of that organization. Equally important are the rodeos which also include an impressive variety of events. As an outgrowth of foxhunting we have hurdle and brush racing at the major tracks and at the hunt race meetings; timber racing at the latter events and at the point to points, both between flags and of the old fashioned variety; hunter trials and hunter pace events. There are Pony Club rallies, gymkhanas, three varieties of polo and a score of smaller contests. Most important of all from an economic point of view are flat racing and harness racing which occupy first and second place (surpassing baseball) in the total of paid admissions per year.

We have accurate figures as to the extent and importance of racing, but not as to other equestrian, contests. The list of champions appearing in this issue is the most extensive published concerning horse shows, but it still covers only a part of the field. We should by all means take a comE

The Rarest Kind--The Intellectual

Raleigh Burroughs

Although any high school kid today can make a stereophonic phonograph, with radio attached, and a child is required to split at least one atom to get out of the sixth grade, the most fascinating study of all remains the examination of God's creatures. If you think for a minute, you'll realize that this field includes many intriguing species.

The instinct to pry into the mysteries of natural history hit me at an early age, and, I'll guarantee you, I had as much fun as the present-day pre-teen-agers do with their ray guns and space helmets.

Really, the 1959 nine-year-olds are missing a lot.

I challenge any of them to match the excitement of chasing your pet black racer (that's a snake, Martin) up and down the basement with no assistance except the hysterical prayers of a terrified colored washerwoman, while your Aunt Rachel is trying to go out the back door without opening it.

That was a day of golden memories. After the family persuaded me to abandon my adventures in herpetology, I became a lepidopterist. You look a bit sillier chasing a specimen of Vanessa antiope through a sylvan glade than you do grabbing an Agkistroden mokasen behind the ears, but you're a lot safer.

And, while few parents would object to your bringing home a mourning cloak butterfly, many mothers demur when their kids consort with copperheads.

Even the butterfly - collecting hobby can get out of hand - in the eyes of parents. I wrecked the game for myself when I attempted to expand coverage. It seemed to me that the entire story wasn't told unless you exhibited baby butterflies along with adult specimens. Well, baby butterflies - and moths - don't look anything like their papas and mammas. They are not

Cremated Caterpillar

I wasn't the first one to get the notion to place deceased caterpillars in the drawer with the butterfly corpses. A Professor W. J. Holland, Ll.D., had the idea long before I did and put a do-it-yourself chapter in his book.

First you chloroform the brute. Then you make an incision and eviscerate, by rolling a pencil gently down the carcass toward the incision. That leaves nothing but the skin.

The next step calls for precision and delicate handling. You place a glass tube in the incision and blow up the skin, taking care not to inhale.

That would flatten the skin.

If more than one worm is to be preserved it is wise to mark the ends of the glass tube "yours" and "his". This prevents traces of peanut butter or Pepsodent from getting into the skin and setting up deteriorating chemical actions.

In the final step, you broil the cadaver over a slow fire.

That was the operation that cost the entomology racket a promising apprentice. I never was much for slow fires.

The result was a thick, brown, aromatic smoke and a cremated caterpillar. It was the thick, brown, aromatic smoke that busted the budding lepidopterist. The aromatic part still was hanging around the house when we moved.

The step, then, was toward the investigation of higher animals - dogs, horses and, finally, people.

Concentrating On People

In recent years, I have concentrated on people of one particular clan or clique - those associating with, publicizing or investing in or upon, horses. They're more fun than reptiles.

The subspecies which devotes itself to "investing in or upon" is split up into many sub-subspecies, some of which never may be catalogued scientifically.

One of the rarest is the intellectual horse-player, and it was my privilege to observe one of these creatures going through his "ritual of selecting" this was not unlike the devotional ceremonies engaged in by a Tibetan monk each a.m. -without prayer wheel, but with a reasonable facsimile.

The particular votary that I observed in action was unusual even in his subsubspecies. Your average intellectual horse-player does not have a degree, and he may not be intellectual when he ventures into some other field.

Stoneybrook Hunt Race Meeting

Chris Wood, Jr.

Despite early rains and threatening skies throughout the day, the 1959 steeplechase racing season got off to an auspicious start the 12th meeting sponsored by the Stoneybrook Hunt Racing Association at Southern Pines, N. C. on Saturday, March 21. A diverse program of events, highlighted by the 19th running of the Sandhills Cup, brought out a record-breaking crowd of over 7,000 persons. Making their first appearance at the meeting which now opens the chasing season each year, Governor and Mrs. Luther D. Hodges were the guests of honor.

Timber Race

Of the original 10 nominees, a halfdozen accepted the issue in the timber feature with a \$1,000 purse and at the conclusion Mrs. M. G. Walsh added another permanent trophy to her already loaded trophy case. Making an initial start over timber, her Bin Junior performed like a veteran under the guidance of Thomas Walsh, nephew of the owner, to score a decisive triumph over Alfred H. Smith's Grand Chal.

eventual winner led over the first of 12 fences with Grand Chal and Secant, also owned by Mrs. Walsh, in his wake. Going well in front, Bin Junior found the field closing on him over the 4th jump and for an instant, Secant showed a head in front, Clucking to his mount on landing, young Walsh again drew away and was never headed for the balance of the journey, as Secant faded to eventually finish last.

Over the 12th and final fence, Bin Junior led by 2 lengths with Grand Chal. timber racing champion of 1958, in his wake. Making a belated move under his 18-year-old owner, Carolina Hills negotiated the fence 3rd, just 2 1/2 lengths behind Grand Chal and 5 lengths to the good of Secant, with Mary March closing. Under the wire, Bin Junior drew away to score by 5 lengths, with Grand Chal holding a 6 lengths advantage over Carolina Hills. Passing the tiring Secant in the stretch, Mary March got up to be 4th.

In covering the 2 1/4 miles and 12 fences in 4:47 3/5, Bin Junior, a 7-yearold gelding by Bin Bin-Beautiful Moon, gave the Southern Pines sportswoman a third victory in the race and permanent possession of the silver bowl donated by Mr. and Mrs. Dwight Winkleman, Mrs. Walsh scored her initial victory in the Taking command at the break, the Sandhills Cup with *Erin's Cottage in 1955 and last year her Mummer's Knot chalked up a double.

The only casuality registered in the Sandhills Cup was brought off over the 11th THE CHRONICLE

obstacle, where the Saxon Woods Stable's Navy Talk hit hard, losing Jack Wyatt as she nearly came down. The apprentice chase rider was not injured and later returned to win a hurdle race.

Maiden Hurdle Race

In annexing the Sandhills Cup for the 3rd time, Mrs. Walsh registered a double for the day. Earlier she watched her Kingsbury, making a first start in her silks, easily turn back 9 competitors to win the Yadkin, a 1 1/2 mile hurdle race for maidens. Cleverly handled by Harry Hatcher and coupled with Watermount and Flying Cottage as the M. G. (Mickey) Walsh - trained entry, Kingsbury ran 2nd for most of the journey to Randolph D. Rouse's Gokev.

Jumping the 7th and final hurdle a 1/2 length off the front-runner, Kingsbury responded to Hatcher and the pair drew away to win by 2 1/2 lengths. Closing well in the final stages, Mrs. William H. Frantz, Jr.'s Duke-o-Warwick was 3rd, 2 1/2 lengths behind Gokev. Formerly a hurdler for Mrs. J. Yancey Christmas, Kingsbury negotiated the distance in 2:34 1/5 over firm turf.

In the early stages, James Wyatt received his first spill of the day when Col. L. H. Nelles' First Sea Lord and Alfred H. Smith's Freschal were mixed up in a spill. The pair were bumped by another

My man was an intellectual BEFORE he became a horse-player, and that's really a fellow to watch.

Because of the properties required, it would be impossible for this operator to function in a grandstand seat or on a train. He needs a dining room table.

Implements Employed

The implements employed were a "Racing Form," a daily newspaper, the reasonable facsimile of a prayer wheel and two martinis - one at each hand. This gent was ambidextrous with his martinis.

The key instrument, actually, looked nothing at all like a prayer wheel. It was a flat rectangular device that looked exactly like a wrapped milk chocolate bar before the chocolate people discovered they could get just as much for a small bar as they had been getting for a big one.

This thing had silver numbers printon it and a couple of slides that the operator adjusted after references to the Racing Form and the martinis.

Exhibiting a degree of concentration of mind and dexterity of hand possible only to the true genius, the intellectual handicapped the entire card.

In the middle of the complicated process, a waiter came up and wanted to know (as he dropped a piece of paper on the table) "How does this one figure on the Hershey bar?"

A quick look at the Form, an adjustment of the key instrument and a swallow of the righthand martini produced the answer. It was: "Doesn't figure."

The survey of horse potential and the martinis were completed at the same

Naturally, awe-smitten observers were eager to know what findings resulted from this scientific sorting of salient elements.

The intellectual was unhesitatingly generous, observing that, of course, he would not have a wager in every race. That would be unscientific.

"I am betting," he said, "two of Grant's mounts and three of Bishop's horses."

"Two of Grant's mounts" won the double and one of Bishop's horses came through for a 60 per cent day.

I forgot to ask where you can buy one of those prayer wheels.

Wonder how it would work if Grant and Bishop were not at the track.

horse in the melee and came down with no injuries to the horses or riders. Freschal, a green mare, was involved in a schooling accident with her rider, Joseph L. Aitcheson, Jr., about a month ago. The mishap on the farm at Laurel, Md., sidelined the popular rider for a few weeks.

Last vear Nancy Sweet-Escott's *Trouble Maker 2nd started his seasonal campaign by winning the Silver Run, a 6furlong turf race, at the Stoneybrook session. History repeated and again the import won under the handling of Robert S. Mc-Donald. Leading throughout, the 6-yearold gelding scored a 41/2 lengths triumph. Closing well, but unable to threaten the winner, Thomas Walsh got the Charkitt Stable's *Brendan up to be 2nd in the field of 15 starters. Also closing well, Guilford Dudley, Jr.'s Merecido was 4th, a neck in front of T. R. Satterwhite's Baron Ford. The winner was timed in 1:38.

The Stoneybrook

After suffering two spills during the day, James Wyatt put up a good ride to bring Col. L. H. Nelles' Hardy Admiral from last to 1st in the Stoneybrook, a I 3/4 mile allowance race for hurdlers. The pace for most of the race was set by Mrs. Henry Obre's *Red Sun 2nd under Kenneth Field. Working his way through the field of 7 starters, Hardy Admiral caught *Red Sun 2nd over the 8th and final hurdle, landing with a head advantage, Responding to Wyatt in the run for the wire, the hurdler trained by Mrs. Clara E. Adams drew away to win by 3 lengths. Best of the balance, *Red Sun finished 2nd, 2 1/2 lengths to the good of T. B. Satterwhite's Silver Breeze, Mrs. M. G. Walsh's Supernatural, Randolph D. Rouse's Repeat Mandate and Guilford Dudley, Jr.'s Here's Why completed the finishing field as named. While running 2nd, Mrs. William D. Hails *Another Hyacinth hit a beacon on a turn, giving Harry Hatcher a hard, but not injurious spill, on the turf. Making his first start over hurdles, Hardy Admiral a 6-year-old gelding was timed in 3:27 4/5.

Without Precedent... Even Among Cadillacs!

It has long been understood that the one true way to judge a Cadillac is to measure it against another Cadillac!

And yet, even this historic yardstick is not completely applicable for 1959. For this newest "car of cars" is without precedent-even among Cadillacs!

Standing regally at the curbside, in motion on the highway, or making its grand entrance at some distinguished event-its majestic new styling is always the subject of unstinted admiration.

Cadillac's new fabrics and leathers are breath-taking to behold . . . appointments are crafted with a jeweler's care

. . . and its interiors are so spacious that entering and leaving are accomplished with wonderful ease and grace.

And the car is easy to handle, so obedient and responsive to the touch and so smooth and silken in action that even the longest journey is a pleasure to anticipate-and a joy to recall.

So whether you are looking forward to your first Cadillac-or your fifth-or even your tenth-you have a great discovery ahead of you.

We suggest you visit your dealer soon for a personal demonstration of this brilliant new Cadillac.

DOUBEK'S FAMOUUS RIDING BOOTS

Men's - Women's - Children's

We have a riding boot for growing children from sizes II to 6, and we guarantee the child will wear them as long as three years. Every pair has to be altered to last that long. All riding teachers recommend high boots for the children's protection and comfortable riding. The following is a testimental letter from one of our satisfied customers:

Dear Mr. Doubek:

We have experienced such remarkable value from the two pair riding boots built by your company for my twin daughters, I feel obligated in writing you and expressing both Mrs. Falk's and the writer's extreme satisfaction.

I must compliment you on developing a principle which answers a problem which must face all parents—namely—how can parents encourage outdoor activities with growing children where the basic equipment is quite expensive and quickly outgrown?

Holly and Peggy have now gone through two seasons with your boots and I can assure you there has been a great deal of usage. The boots have continued with their original comfort and appearance and, wonder of all wonders, they have grown with the children.

Of interest to you is the fact the writer and his family were recently in London and sorely tempted to purchase riding boots for the children from the "Center of the Industry". We studied both ready made and custom made boots and confirmed our original opinion that your product had equivalent quality and a better value.

Very truly yours, Myron P. Falk 861 West Street Leominster, Mass.

We also have in stock imported English riding boots for Ladles and Men in any style, either black or brown. We have Field, Hunt and Polo boots and Jodhpur boots in either elastic or strap sides. We specialise in fitting boots and guarantee every pair fitted to your individual measurements.

If you have a good pair of boots that is too small in the calf, top, instep or the foot, we have a method of making them larger for your comport. We can stretch them to your individual measurements. No gussets or zippers are used. Please send your boots with instructions attached.

Please send for our new booklet and measurement chart for ordering men's, women's and children's boots, with pictures, prices and sizes.

YOUR SATISFACTION GUARANTEED
